

Respect and Dignity

Work toward a culture of respect and dignity, use respectful language, prevent tokenism, and use a trauma-informed approach.

Strategic Sharing

Discuss when and how much to share, who should hear their story, and identify preparation and supports needed.

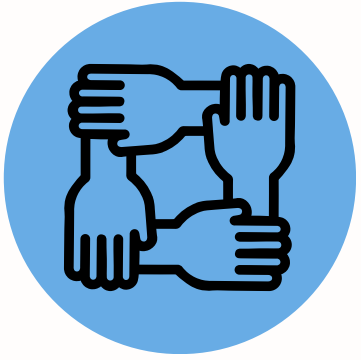

Training

Researchers and committee members should know basics of community-academic partnerships, community-based participatory research approaches, cultural humility, anti-racism skills, & research methods.

True Partnership

Communicate clearly and listen actively to committee members. Respect schedules when planning meetings.

Accountability

Create bylaws. All members mutually agree to be held accountable.

Equitable Compensation

Equitable pay, other benefits like networking & travel.
